Last week I wrote about the anti-science campaign being waged by opponents of the use of genetically modified organisms in agriculture. In that post, I promised to address a series of questions/fears about GMOs that seem to underly peoples'™ objections to the technology.

The anti-GMO campaign's™ dangerous war on science

The opening salvos of a full-blown global trade war are rumbling closer by the day, and indeed may already have been fired with the decision by US authorities to consider big tariffs on aluminum ...

If US-China trade war goes global, it has big implications

Epistemological anarchism is an epistemological theory advanced by Austrian philosopher of science Paul Feyerabend which holds that there are no useful and exception-free methodological rules governing the progress of science or the growth of knowledge.
